Our Story

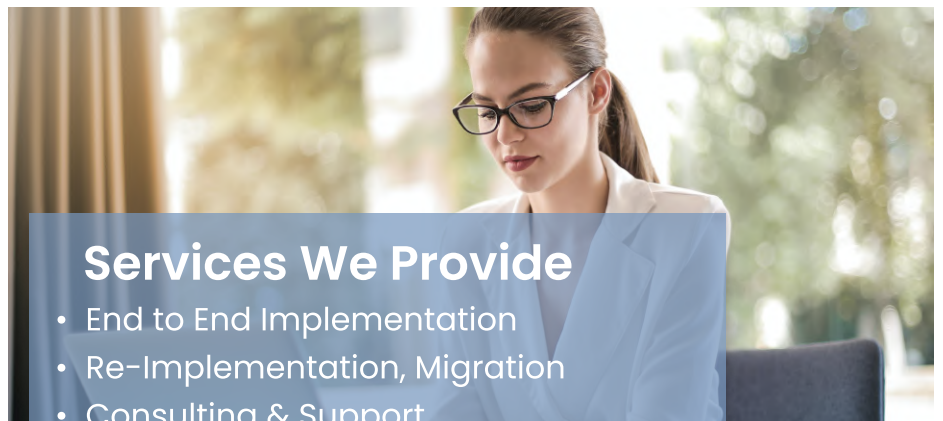

Pacific Consulting is a Microsoft Partner composed of a group of young pioneers who are organized to turn the wheel towards a new horizon. We provide Business Solution Products to a wide range of industries through Microsoft Dynamics 365 suits, which includes Microsoft Dynamics Business Central, Sales, Marketing & Services. We at Pacific specialize in Microsoft Dynamics products and services which includes licensing, implementation, support, version upgradation, and enhancement. We also provide services on Business Intelligence Tools to improve the system performance.

Mission- Providing valuable & reliable quality services.

Vision- To be your chosen partner for improved performance.

Why Choose Pacific as Partner?

We work with a team of professionals who hold expertise in understanding the basic needs of client and accordingly provide them suitable solution. We can assert with pleasure that we are growing rapidly each day and can recognize ourselves as among the leaders in terms of service & quality of Microsoft Dynamics Solutions. Along with focusing our passion with our Client's needs, it is of critical importance to be appreciated by them. This appreciation is our Holy Grail which we aspire to achieve. The management strives to redevelop and renew internal strategies in order to match client's expectations.

What is ERP?

Enterprise Resource Planning (ERP) is an application that brings together all the core components of your business into one unified, digital experience. Your entire team can access key information ranging from sales to material management to finance to marketing, all at the click of a button.

Why ERP?

- Edge above competition.
- Increased efficiency
- Better forecasting
- Overall cost savings
- Streamlined process
- Detailed reporting
- Pinpoint tracking
- Regulatory compliance
- Enhanced data security
- Improved customer service
